

SIVANESH K

Artificial Intelligence & Data Science Undergraduate | Machine Learning • Deep Learning • Data Analytics

Tiruchirappalli, Tamil Nadu, India | +91 9789704674 | sivaneshk05@gmail.com | linkedin.com/in/sivaneshk05 | github.com/sivaneshk23

CAREER OBJECTIVE

Passionate Artificial Intelligence and Data Science undergraduate with practical hands-on experience in Machine Learning, Deep Learning, Python, SQL, Data Analytics, Data Visualization, and Database Management. Demonstrated capability in building predictive models, computer vision systems, API integrations, and interactive dashboards through academic projects and competitive hackathons. Seeking an entry-level opportunity to contribute technical value, problem-solving skills, and innovative solutions in a fast-paced IT and software development environment.

SKILLS

Languages:	Python, Java, SQL, HTML, CSS
AI & Machine Learning:	Machine Learning, Deep Learning, Computer Vision, Predictive Analytics
Data Analytics & Tools:	Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Tableau, Power BI
Libraries & Frameworks:	Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV, TensorFlow, Keras
Databases & Tools:	MySQL, Git, GitHub, VS Code, Jupyter Notebook
Core Computer Science:	DBMS, OOP, Data Structures, Algorithms, Operating Systems, Software Engineering
Soft Skills:	Problem Solving, Analytical Thinking, Communication, Team Collaboration, Adaptability, Leadership

EDUCATION

B.Tech in Artificial Intelligence and Data Science CGPA: 7.92 / 10 (3rd Year, 5th Sem)	2024 – 2028
J.J. College of Engineering and Technology, Ammapettai Tiruchirappalli (Affiliated to Anna University)	
Relevant Coursework: Artificial Intelligence, Machine Learning, Deep Learning, DBMS, Data Structures & Algorithms, Software Engineering, Data Analytics	
Higher Secondary (Class XII) — CBSE Percentage: 76.2%	2023
Sacred Heart CBSE School, Mathur Pudukkottai	
Secondary (Class X) — CBSE Percentage: 70.5%	2021
Sacred Heart CBSE School, Mathur Pudukkottai	

PROJECTS

AI-Based Aadhaar Service Demand & Infrastructure Optimization System

Technologies: Python, Pandas, NumPy, Scikit-learn, Machine Learning, Tableau

- Engineered predictive analytics and K-Means clustering to forecast district service demand and optimize resource allocation.
- Designed interactive Tableau dashboards and executed large-scale data preprocessing to deliver data-driven infrastructure insights.

Crop Disease Detection using Deep Learning

Technologies: Python, TensorFlow, Keras, OpenCV, CNN, Deep Learning

- Trained a CNN model to accurately classify crop leaf diseases, utilizing OpenCV for real-time image augmentation and preprocessing.
- Facilitated precision agriculture diagnostics by optimizing feature extraction pipelines to minimize false positive results.

Honeypot Threat Intelligence API

Technologies: Python, REST API, Data Analysis, Cybersecurity

- Developed a RESTful API module to capture, parse, and analyze real-time honeypot attack logs into relational database tables.
- Evaluated threat metrics and malicious vector patterns to generate automated security telemetry reports.

Business Data Visualization Dashboard

Technologies: Tableau, Power BI, SQL, Data Visualization

- Built interactive Tableau and Power BI dashboards connected to SQL datasets with dynamic KPI indicators and drill-down filters.

CERTIFICATIONS

- Technical Certifications:** SQL & Data Analysis Certification | Machine Learning Internship Certificate (CodeAlpha) | Deep Learning & Machine Learning Certification (Novitech)
- Hackathons & Workshops:** IndiaAI Impact Buildathon | HCL GUVI Hackathon | KPR Hackathon | Kaiser 2025 Symposium | Asthra 2025 Symposium

ACHIEVEMENTS & LANGUAGES

- Achievements:** Typist with Distinction (Technical Skill), developed multiple end-to-end AI/ML/Data Analytics projects, and actively participated in national-level technical hackathons and academic symposiums.
- Languages:** English (Intermediate) | Tamil (Mother Tongue)
